From: Mr. Griffin

Re: Doubtful Identifications of Oswald

Before any "interviews," depositions, or testimony involving persons who claim to have identified Oswald in one particular place or another are undertaken, I wonder if it would not be a good idea to assemble a list and photographs of all persons known to have been mistaken for Oswald with the view toward confronting those witnesses with pictures of the persons who have been so mistaken. In examining the papersin the Rubyend of the Commission's work, we have come across at least three persons who have been mistaken for Oswald, Larry Crafard, (fnu) Ford, (fnu) Farrow. With a little checking, I can provide the full names of Ford and Farrow.
